ATTORNEY DOCKET # 2000-0672 (1014-199)

Applicant's duty of disclosure for the allowed applications, and thus, Applicant has been prevented from permitting the allowed applications to proceed promptly to issuance.

4. These difficulties and delays in permitting the allowed applications to proceed promptly to issuance potentially:
  - a. undermine and/or frustrate the USPTO's stated goal of compact prosecution;
  - b. "cause unnecessary delay or needless increase in the cost of prosecution before the Office"; and/or
  - c. increase the probability of the USPTO issuing one or more invalid and/or unenforceable patents.
5. To prevent and/or minimize these potentialities, Applicant respectfully requests suspension for six (6) months of this application (and, via concurrently filed Suspension Requests, all the pending related applications except the allowed applications) to permit the allowed applications to safely issue, and plans to promptly request resumption of prosecution once each of the allowed applications has issued.

The Office is hereby authorized to charge any additional fees or credit any overpayments under 37 C.F.R. 1.16 or 1.17 to Deposit Account No. 50-2504. The Examiner is invited to contact the undersigned at 434-972-9988 to discuss any matter regarding this application.

Respectfully submitted,

Michael Haynes PLC
